## **APPENDIX B**

### **DRUG AND ALCOHOL POLICY**

The City is covered by the requirements of the Drug-Free Workplace Act. The Act recognizes that drug use can adversely impact the workplace. Employees under the influence of drugs or alcohol while on the job pose a grave threat not only to themselves, but also to anyone with whom they come in contact.

Possessing, using, purchasing, distributing, selling or being under the influence of alcohol or drugs without medical authorization during your work day, while on the City's premises, or while conducting City business is prohibited. Compliance with this program is a condition of employment. Violations may lead to disciplinary action up to and including immediate discharge.

The City will require all employees to undergo testing to determine the presence of alcohol or drugs under the following conditions occurring on City premises:

1. If an employee has been involved in a work related accident, not including a cumulative trauma injury, which involves medical treatment by a doctor; or
2. If the City has reasonable cause to believe that the employee is under the influence of alcohol or drugs.

When the City has reasonable cause to believe that an employee is under the influence, it shall reduce the basis of such belief to writing. A copy of such written basis shall be given to the employee if the employee is required to submit to testing. Reasonable cause exists when the facts and circumstances within the knowledge of the City are sufficient to warrant a prudent person to conclude that an employee is under the influence of alcohol or drugs. Statements made by an employee shall not in itself constitute reasonable belief.

An employee who refuses to consent to or submit to such testing shall be subject to immediate discharge.

An employee using or being under the influence of alcohol or drugs at work, may avoid disciplinary actions, as explained in the attached administrative guide, by voluntarily participating in evaluation and substance abuse treatment programs as provided under the City employee benefit plans.

Under the Act, if an employee is convicted (including a plea of no contest) of a criminal drug violation in the City workplace, as a condition of employment the employee must inform the City within five days after the conviction.

The operation of the above will be conducted in conjunction with the attached administrative guide.

## **EMPLOYEE ALCOHOL/DRUG TESTING ADMINISTRATIVE GUIDE**

1. As used in this document, "drug test" means any blood, urine, saliva, breath or skin tissue test conducted for the purpose of detecting the presence of a chemical substance in an individual.
2. If the City requires an employee to submit to a drug test, the following conditions will apply:
  - a. The employee will be required to consent in writing to the drug test using a form designated by the City.
  - b. The test sample withdrawn from the employee will be analyzed by an N.I.D.A. approved laboratory or testing facility.
  - c. The City and Union may work with the N.I.D.A., approved laboratory to select an independent medical review officer (MRO) who will interpret all positive tests. The employee who tests positive will then have the right to submit to the MRO alternate medical explanations that may have caused the positive results. The MRO may request additional testing of the positive sample to confirm those explanations. All positive samples will be retained for one year. An employee may request a retest of that sample by the laboratory or another N.I.D.A. approved laboratory at the employee's expense.
  - d. All specimens identified as positive on the initial test shall be confirmed using mass spectrometry/gas chromatography techniques at the cutoff levels listed in the Mandatory Guidelines for Federal Workplace Drug Testing (fr/vol.53, no. 69/April 11, 1988) or as modified by later Department of Health and Human Services Guidelines.
  - e. The first time an employee's drug test indicates the presence of alcohol or a drug, the City will provide substance abuse evaluation, and treatment if recommended by the evaluation, with costs apportioned as provided under the employee benefit plan. The City will take no disciplinary action against an employee due to the employee's drug or alcohol involvement if the employee undergoes the substance abuse evaluation, and if the employee successfully completes substance abuse treatment if treatment is recommended by the evaluation. However, if an employee refuses evaluation, fails to successfully complete substance abuse treatment, or refuses such treatment when recommended by an evaluation, the employee will be subject to immediate discharge. The above substance abuse evaluation and treatment will take place under City approved programs only. The employee will be required to provide written proof to the City of successful completion of the above treatment.
  - f. An employee having a second positive test within a two year period beginning with the date of the previous positive test, will be subject to immediate termination.

3. This document does not restrict the City's ability to prohibit the possession, purchase, distribution, selling or use of alcohol, drugs or drug paraphernalia on City premises or during work hours or to discipline employees for these activities.
4. This document does not prevent the City from conducting medical screening in order to monitor exposure to toxic or other unhealthy substances encountered in the workplace or in the performance of their job responsibilities.
5. The City will protect the confidentiality of the results of any drug test conducted on an employee. The results of the test will be recorded in the employee's personnel records; however, if an employee whose test indicated the employee was under the influence of alcohol or drugs or indicated the presence of a drug has undergone substance abuse evaluation and, when treatment is indicated under the substance abuse evaluation, successfully completed treatment for substance abuse, the employee's personnel records shall be cleared of any reference to the test or its results when the employee leaves employment.
6. The City's current procedures for drug tests as a part of pre-employment physical examinations are not affected by this document.
7. "Employee" as used in this program means any paid individual who performs work covered by the labor agreement.
8. "City premises" as used in this Policy includes all facilities, buildings, parking lots and vehicles owned, leased or used by the City for City business, and any physical location where the City is engaged in business.
9. "Drug" as used in this Policy means illegal chemical substances as defined in the Controlled Substances Act, over the counter and prescription medications that have been altered to provide similar effects as illegal chemical substances, or substances such as glue which are misused to provide similar effects as illegal chemical substances, and those prescription medications used other than as prescribed by an authorized medical practitioner.

The drugs to be routinely tested for as a drug test are as follows:

Amphetamines  
Marijuana metabolites  
Opiate metabolites

Cocaine metabolites  
Phencyclidine

Initial Drug Test Levels shall be as listed in the Mandatory Guidelines for Federal Workplace Drug Testing Programs (fr/vol. 53, no. 69/April 11, 1988) and as modified by later Department of Health and Human Services Guidelines.

10. "Alcohol Test" as used in this Policy will be screening by breath analyzer methods. If the employee requests a confirmation from an independent source, confirmation will be by extraction and testing of a blood sample through a N.I.D.A. approved laboratory.

Test Level for Alcohol - A blood alcohol concentration of .10 or greater, shall be considered sufficient to show an employee to be under the influence except when state law mandates that a different concentration level be used.

11. "Additional testing". The City may submit a request for additional testing for other chemical substances to the MRO when an employee initially tests negatively for alcohol and the listed drugs when such initial test was the result of the City having a reasonable belief that the employee is under the influence of alcohol or drugs. The MRO shall determine whether or not such additional testing is justified.
